Join us Friday November
25th from 6:00a.m. to 12:00
noon for our annual storewide
sale! More details to come
soon!

Jewelry Tip #11

November Birthstone: Citrine

Citrine stones can last forever if cared for properly. Care should be taken to avoid any extreme physical damage, but will withstand everyday wear and tear. A citrine can also be very sensitive to heat and therefore should be avoided to prevent color changes. Any general jewelry cleaners or gentle soap and water can be used to clean this jewelry. Also ultrasonic cleaning is ok without heat, and steaming should be avoided.

Remember that cleaning and inspecting of your jewelry on a regular basis is important to maintain your special jewelry and prevent lost or chipped stones, loose stones, and much more. Stop in today to have your jewelry cleaned and inspected for FREE!
