Jewelry Care Tip #1

Having your jewelry cleaned and inspected is important to assure the quality and safety of your diamonds and gemstones. When having your jewelry cleaned and inspected by a jeweler, the jeweler will check for any loose stones, worn prongs, and any other necessary repair. At JoJo's Jewelry & Gifts, we recommend bringing your jewelry in every 6 months for cleaning and inspection. Best of all, we do it for FREE!

In between cleanings, a regular jewelry cleaner can be used in home. Our jewelry cleaner is specially formulated to clean all types of delicate and porous gemstones, including pearls. It is also gentle enough for your fashion jewelry.

Stop by today for FREE cleaning and inspection of all your jewelry.
