Jewelry Care Tip #2

Caring for your pearls requires special attention. To help preserve the life of your pearls, be sure to put them on after applying cosmetics and styling your hair. Pearls can also be harmed by perspiration and should be wiped with a soft cloth before storing. An ultrasonic cleaner should never be used on your pearls. Also, do not use abrasive cleaners or abrasive cloths because they can damage the coating leaving a dull looking pearl. It's also best to avoid direct sunlight and extreme temperatures. Your pearls can also be cleaned by your local jeweler as well.

Stop by today for FREE cleaning and inspection of all your jewelry.

We Do Engraving!

We do all engraving in store for every occasion. We can engrave on plates for birthdays, weddings, retirements, or anything else you desire. We also engrave on trophies, plaques, photo frames, crystal, and much more! Don't have the trophy or plaque you need for your next event? We do! And if we don't we can always do special orders. Would you like to add a design to jazz up your item? We do that too! With over 40 font styles to choose from, you're able to customize your item as well. All engraving charges start at \$5.00, we do not charge per letter.
